Re: Notification Pursuant to Section 103(C) of the
Comprehensive Environmental Response, Compensation and
Liability Act of 1980

Dear Sirs:

Pratt & Whitney Aircraft Group operates 10 industrial facilities. Reports pursuant to the Resource Conservation and Recovery Act have previously been filed with the attached cover letters dated August 13, 1980 and November 18, 1980. The latter letter identifies the location of the 10 facilities. It is our understanding, based on the statement of EPA in the April 15, 1981 Federal Register, that those reports exempt these facilities from the current "Section 103 (C)" notification requirement.

The information contained in the five (5) enclosed Notification of Hazardous Waste Site forms represents the present knowledge of employees and available records which indicate that the materials identified were generated and transported to the identified landfills.

Very truly yours,

Robert J. Wise
Assistant Counsel
